Dear Mr. Wilson and Association:

Thank you once again for sponsoring our middle school program with supplementary materials for science. The Tracks magazines are used in several different classrooms. Our building now has a self contained EI room with students who are bright but have severe behavior issues. Their teacher has indicated that the Track magazines are in demand in his classroom by all of his students. They illicit group discussions and give ideas for hands-on projects. The self contained severely mentally impaired students also find these magazines useful. They look at all of the colorful pictures and write short reports on the wild life. The general ed. science teacher even uses these magazines in his classes as supplementary material.

As you can see the Tracks magazines are well used. Students are enjoying the articles and pictures. Most importantly, they are learning new things with each new magazine that comes to the school.

We hope that you will be able to continue to sponsor our school in the future. The educational rewards make your monetary contribution worth it.

Thank you for your support this year from all of the students and staff. You are appreciated.

Sincerely,

Sandra Kawecki
Teacher Consultant
