ICE FISHIN'

The Indians were the fellows who started this business of ice fishing in Michigan, long before Columbus, long before the time of steel hooks. They used spears, bows and arrows and a kind of stone or bone hook called a gorge. Bait was placed on the gorge and the fish was allowed to swallow it. When the line was pulled, the gorge turned sideways inside the fish and served as a fairly efficient anchor inside the fish's gullet.

The tip-up became popular with Indians on Keweenaw Bay more than 700 years ago, the first ones being made of bent twigs. About this time, too, the Red man was hauling lake trout to the shores of the Straits of Machinac in a dog sled and this still long before the white man thought of the practicality or enjoyment of this sport.

As we know it today, ice fishing had its beginning in the early thirties, near Coldwater in Branch county. Here a few hardy individuals discovered they could catch bluegills through the ice. This was the start, and caused the growth of ice fishing to its present place of popularity. In two decades it has become a major factor in Michigan's conservation and tourist work.

For every fisherman who 20 years ago enjoyed catching bluegills through the ice, there are now several thousand waiting for the big freeze each fall to pursue their favorite cold-weather pastime. Their windbreaks, tip-ups and shanties are found everywhere on Michigan waters in the winter. They are out for bluegills, perch, smelt, northern pike, walleyes, lake trout, crappies, whitefish, sturgeon and a variety of pan fish, with women constituting a high percentage of the total number of anglers.

When solid ice is made colder, it contracts. This causes the squeaks and cracks and booming so often heard in the early morning or toward evening of cold days. Snow on ice often makes it unsafe by allowing an air-ice condition to form during a time of alternate thaws

and freezes. Avoid dark spots in the ice or places where the snow looks discolored; underwater springs may be at work, swirling the water so ice is unable to thicken.

Certain rays of light entering a body of water in the winter cause fish to react in different ways. When ice is snow-covered, fish are often attracted by opening holes that allow the light to enter. By the same token, if the ice is clear and the sun shining, they often congregate around weed beds and become fairly active—but this activity is a sword that cuts both ways. While it makes fish more food conscious, it also makes them more alert and wary. A shadow across the hole under such conditions may send them packing.

In the winter, fish slow down. They eat less, move less, react to anglers with less vigor. Who wouldn't, living in ice water? Thus, anglers' baits need to be especially tempting to attract fish in the winter. No old dead, drowned, broken-back minnows.

If the water appears clear where you

ice fish, you can study what's going on under your fishing hole by lying flat on the ice, draping a coat over your head to shut out local light and then looking down through the hole. If the day is bright and the ice fairly clear, it may be possible to see weed beds, fish concentrations, bottom conditions and other factors that will help your fishing.

Though methods of travel over ice vary widely, the common small sled probably has more advantages than any other. It is light, provides a way to carry considerable equipment, serves as a seat and gives several advantages of safety. Many anglers build their own sleds of simple and cheap construction, and carry everything from fishing gear and heavy life ropes to thermos bottles and hand-warming lanterns.

On the subject of bait, see what the others are using and what is being sold in the vicinity, but be ready to try anything, from bugs, grubs and minnows to fish entrails, bread dough and earth-worms.

**PRESIDENT'S COLUMN
JUNIOR CONSERVATION
PROGRAM**

This program is being enjoyed by both the boys and girls as well as the parents who bring them. Our only regret is that more of you do not bring a car load when you come to these programs, remember the neighbor children would enjoy them also and there is plenty of room.

Our next program will be on Monday night, February 21, at 7:30 sharp. The picture will be "REALM OF THE WILD," in technicolor, a beautiful picture of our forest animals in their natural habitat. Another will be on life in a lumber camp, a very educational as well as entertaining picture.

Do not disappoint the children, bring them to see these pictures and make this a record night.

"SO DEAR TO MY HEART"

By Walt Disney

also

"DISNEY CARTOONS"

By Walt Disney

Coming to Multi-Lakes a new type of entertainment on Saturday night for those of you who do not like to dance as well as those who do. This is a picture in technicolor, as only Disney can produce them.

Using both animation and live action, this full length feature presents the honest story of a boy and his deep love for an unwanted black lamb. With a God-fearing "granny" who teaches him basic moral values, Jermiah (the boy) learns sincere devotion to his lamb is far more rewarding than winning cash awards at county fairs. Eight song hits help tell this delightful, heartwarming story that proves "It's What You Do With What You've Got That Pays Off In The End."

There will be no charge for admission to this program, it's free with the compliments of Multi-Lakes and we hope that we have a full house. The continuance of these programs depends on your attendance and what you think of them.

The bar will be well patrolled during the evening.

The picture will start at 7:30 and will last about two hours.

Remember this date, February 26th and do not make other plans for that night, it's your club house, let's use it.

WANTED WANTED WANTED

Each year since our club house was built, someone has promised to build a gateway at the entrance to our club grounds and last year was no exception. And still no gateway. This year I want someone to build it even if we have to hire it done. With eight hundred members there are certainly a few who can undertake this project and see it through to completion. The money is available for material, a suitable set of plans should not be very difficult to draw. Let's get some action on this project, if you have any ideas on it, let's hear them.

One of the first programs on the slate for this spring is the completion of our Parkway. The first action will be the transplanting of the balance of the pines as soon as the frost is out of the ground. Next will be getting the white birch and the native shrubs we want. Next will be getting a water supply to the Parkway so we do not lose all of our plantings as we did last year when the dry weather hit.

If enough of you fellows will assist in these projects there will not be too much for any one to do and I will feel that we have really accomplished a very worthwhile project.

Clayton Adams

MEMBERSHIP MEETING

January 19, 1955

The meeting was called to order by Pres. Adams at 8:15 p.m. with the following officers present:

Clayton Adams President
Ray Chabot Vice President
Herb Harvey Secretary
Jim Campion Membership Secretary
Tom Crane Treasurer

The minutes of the last regular meeting and the November Board of Directors meeting were accepted as printed in the *Multi-Laker*.

The following announcements were made by President Adams:

The next Children's Night will be February 21, the picture will be "Realm of the Wild."

There is room for more Junior shooters on Monday nights. Bring that boy and come on out.

There are openings for women shooters on Wednesday nights.

The last Saturday in February will be the first "Family" night. There will be a two hour program, starting at 8:00 p.m. The feature picture "So Dear to My Heart," also a Walt Disney cartoon.

The Fish Derby and Fox Hunt will be held on Feb. 6, with a fish fry at the Clubhouse afterwards, all you can eat for \$1.25, can't go wrong on this.

REGULAR DECEMBER BOARD MEETING HELD JANUARY 5, 1955

The meeting was called to order by chairman Payne at 8:30 p.m. with the following members present: Jack Allan, Harold Purdie, Harry Helvey, Clayton Adams, Tom Crane, Art Marohn, Ray Chabot, Jim Campion, Harry Horner and A. Sandy Watson. Also present was the Secretary elect, Herb Harvey and one of the new members of the 1955 Board, Ray Gladstone. Ailing George Welbon reported sick.

The minutes of the November Board meetings, regular and special, were read to bring the body up to date and then, as there was no carry-over business, the Chair asked for the President's report.

First, on Clayton's agenda, was plans for a Fox Hunt and Ice Fishing Derby on Sunday, February 6 and to better facilitate the handling of the fish fry, which terminated the day, he presented the desire of our entertainment chairman, Howard Perkins, for Board authorization to purchase two commercial size electric deep fat fryers.

P. G. (Phil-Gas) Crane maintained that, in the purchase of any kitchen articles, we should keep in mind our plans for a kitchen in the near future

and make sure these purchases fit in with the plans. With this thought in mind gas cookers would be the proper appliances to get at this time because all or nearly all commercial kitchens use gas for economy purposes.

Purdie claimed that the trend was to electric.

And so on ———. Results: Crane and Purdie would borrow cookers, gas and electric, to try out in competition on the next few occasions.

After the smoke cleared, Clayt asked permission to stage "Family Movie Night" on the Saturdays not booked for dances or some other Club activity.

Some members doubted the success of such a venture but it was decided to let Adams go ahead and be the judge of it's success and if it should continue after a try-out.

Wysong moved that our President be allowed to go ahead with his new entertainment plan and fill in our open Saturdays as long as he deems it beneficial. Seconded by Helvey—Carried.

There were two visitors present, Bill King and Stan Tusan, desiring audience so Adams moved we deviate from the general order to business to hear them.

Bill was recognized and said that his main purpose of being here, besides turning in the report of the Election Committee, was to impress upon the Board

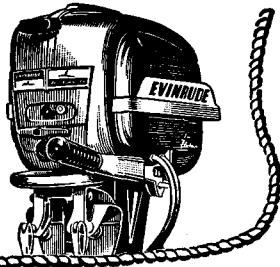

the necessity of making the appointments for the Nominating and Election Committees at an earlier date than in the past. Both he and Nick Lup thought more time was needed for these committee jobs.

In compliance with Bill's request, it was decided that a notation should be placed in the Secretary's Tickler File calling for the appointment of these committees at the March Board meeting of each year.

Stan Tusan was present to put in his application for a date to hold the annual Fish Fry which will again be sponsored by the Bowling League. His committee preferred a date in February but after examination of the future entertainment schedule, March 13 was thought the best date available. Stan accepted this date tentatively.

Returning to the regular order of business, the Secretary was asked to read a letter received from a Mr. Bowman, owner of the Tittabawassee Resort outside Gladwin. It stated that we would be welcome to bring a group of from ten to thirty for popple cutting on the week-end of February 12-13. His charge for board for the two days was five dollars (\$5.00) each. (No charge for lodging.) There would be plenty of spare time for a couple of organized rabbit hunts if we so desired.

BOARD MEETING—(from Page 3)

In case we did not wish to drive our own cars up, I had information that the Greyhound Bus Lines would charter us a bus for the trip up and back for \$170.00. It would be a thirty five passenger coach.

Notification of the exact number making the trip must be forwarded to Mr. Bowman by the first of February.

Membership Secretary Jim Campion reported that he now had ninety seven applications for membership and that the payment of 1955 dues is coming in slowly.

Never being at a loss for reports, Tom Crane gave his Treasury Report of bills payable which was approved for payment by a motion from Watson, seconded by Adams. Tom then proceeded with the following committee reports on activities:

**HAVE YOU PAID
YOUR 1955 DUES?
See JIM CAMPION**

Skeet and Trap—Turkey Shoot

Net profit	\$70.76
Entertainment—Entertainment of MUCC No. 7 Delegates	
Paid out	\$17.54
Dance, October 2—Loss	\$17.00
Dance, Dec. 11—Net Profit	\$35.00
New Years Eve Party	
Gross Income	\$902.40
Expense	668.15
Gross Profit	\$234.25
Advancement	100.00
Net Profit	\$134.25

It was moved by Crane that the reports be accepted along with a big vote of thanks to Howard Perkins and Marion Pullis for a job well done. Seconded by Horner—Carried.

With a final reminder that he would like all committee reports in by January 10, so he could close the books for 1954, Tom revived discussion on the subject of the Club purchasing an adding machine for the Treasurer's use. Soon it will be his job to also take care of the Bar business and one of these machines is a much desired necessity. His own personal investigation revealed that it would be necessary to spend approximately \$175.00 for a good serviceable adding machine. However, the opinion of some of our office equipment wizards is solicited.

Payne said he would make a few personal contacts between now and the next meeting.

Adams next brought to light an unpaid balance on the vestibule owed to contractor Ed Harris and moved we pay it off and close the contract. Seconded by Watson—Carried.

Touched upon lightly was a letter from Mort Neff Inc., announcing plans to organize a party of Michigan Sportsmen who would like to duplicate his trout fishing trip to Chile. No mention was made of the cost so anyone interested would have to contact the Gordon Travel Agency in the Fisher Building, Detroit.

For those who were not present at the last special meeting when we authorized the purchase of a new movie projector, the fact was presented and since the machine was in the building it was decided to have a demonstration at the end of this meeting.

Chabot thought this demonstration of the operation of the machine a very wise move but still thought it best to put one or two men in charge of the projector. Consequently he moved that the President and the Chairman of the House Committee be appointed custodians of the instrument and any use thereof must

be approved by one of these men. Seconded by Helvey—Carried.

With no further 1954 business to discuss the meeting and the year was closed by a motion from Wysong, seconded by Chabot, that the session be adjourned "without date"—Carried.

Time: 10:30 p.m.

Respectfully submitted,
KARL K. WYSONG
Secretary

TRAP AND SKEET COMMITTEE

Yes, fellows, you still have a trap and skeet committee. We have been resting up since hunting season, Xmas and New Year's Eve.

Three teams from Multi-Lakes are having a 50 bird shoot against Evans Products at their field on Jan. 30 and Evans Products will be at Multi-Lakes the last Sunday in February for another 50 bird shoot. The contest will be based on the 100 birds shot at. Starting time will be 12:00 noon both Sundays. So come on out and watch us try to win.

Your new chairmen of the trap and skeet committee for 1955 are Gordon Chapin and Dick Disler. They will more than welcome any of you fellows who would like to work with them on the trap and skeet committee.

Marion Pullis
Past Chairman

RIFLE COMMITTEE OFFICERS

Lin Bush was elected President and Chairman for another year.

Don Wilson will be the statistical officer for 1955.

Frank Hernache was chosen to act as Range Officer.

John Zepf was again elected to act as Secretary-Treasurer.

MEMBERSHIP MEETING—(from Pg. 2)

Applications for the Junior Camp at Ludington this summer, are few and far between. In fact only one application is on file. If there are any boys reading this Multi-Laker, better get after Dad.

Tom Crane read his Treasurer's report for the year ending Dec. 31. Moved by Neunschwander, seconded by Wysong that the report be accepted as read. Motion was carried.

Chairman of the Archery Committee reported openings for archers on Friday nights. They are having good turnouts, and there will be someone, ready, willing and able to offer instructions.

Monty Wysong popped up at this time with the Club's Articles of Incorporation. He thought it was about time they were framed and hung in the Club House. Adams called for volunteers to do the framing and Henry Van Gordon arose at once and assured us that he would handle the job.

Marion Pullis, singing his swan song as Chairman of the Skeet and Trap Committee, reported we were having a match shoot with Evans Products Co. of Eccles Road on Sunday, Jan. 30, at 12:00 p.m. This is to be a fifty bird event for skeet and trap. A return match will be fired on our range. Date for same to be announced at a later date.

Chairman of the Legislative Committee Neunschwander made a report on proposed conservation legislation.

There being no unfinished business, nor any new business, President Adams called on George Stauch for the door prize drawing. The following were the lucky winners:

1. Ice spud F. A. Reece
2. Ice rod E. Campion
3. Sling shot G. Ritter
4. Tie up H. Wiggle
5. Ice rod B. Lawless
6. Hand warmer J. Esler
7. Ice rod J. Carr

Stan Tusan took the floor to remind the membership on the big Annual Fish Fry to be held this year on March 13. Stan says it will be bigger and better, if that's possible. Tickets will be on sale at the bar and by any officer or board member. Tickets will be sold to members only until February 16, after which date anyone may purchase. There will be only 300 tickets printed, so better get going.

At this time Brother Stauch was seen waving his arms for attention, and on being recognized by the Chair, thanked the members present for their confidence in him by their purchase of door prize tickets when there were no prizes in evidence. In other words, Brother Stauch was a bit on the late side. Adams had waited for some time for Lin Bush, Chairman of the Pistol Committee to make his appearance but it was getting late so he called on avid pistol shooter Lysinger to make the report. Carol said they were disappointed in the number of shooters turning out for the events, and that they would need more participants or the whole thing would be discontinued. He said the cost of shooting seemed to be holding some back, but that he had facts and figures showing that 38 caliber shooting could be done as cheaply as \$2.25 by re-loading. Come out next Thursday night.

Comes now the high point of the evening as Clayt Adams called on Howard Shelley, of the Oakland County Sportsman's Club for the showing of his wonderful picture "Algoma Outdoors." A hearty round of applause greeted the end of the picture, showing the appreciation of those present.

No further business appearing the meeting was adjourned at 10:30 p.m.

Respectfully submitted
HERB HARVEY
 Secretary

ARCHERY

By Dick Button

As of Friday, January 14, 1955, this is how the averages stand for the group.

The Multi-Lakes archery gang is still going strong. I would like to take this opportunity to thank all of those who have shown such an active interest. This is the sort of thing we need to spur us on to bigger and better things for archery at our club.

Compliments of . . .

PISTOL COMMITTEE

The response on Thursday, January 20th, was more encouraging. Fourteen men showed up to shoot pistols—the majority of them members.

On January 27th Carroll Lysinger is giving a demonstration of hand loading, and we expect a good turnout if the weather permits (including some of the rifle shooters).

The Board has consented to the purchase of two .22 caliber hand-guns; a Smith & Wesson target revolver and a Hi-Standard target automatic pistol. Roger Schmill is very obligingly furnishing these guns at his cost in the interest of the Club.

So you fellows who have not as yet decided on the type of one-hand job you want no longer have an excuse for not showing up on THURSDAY nights. You no longer can honestly say it's because you don't want to impose and use someone else's gun. These are yours and for you to use—to learn and to practice with.

We'll be looking for you.

Lin Bush

ARCHERY—(from Page 7)

The Multi-Lakes Archers got under way the latter part of November to inaugurate the fall indoor shooting in our beautiful new range house. For the first shoot we had some 30 odd shooters. Since then we have averaged about 27 shooters. This we would like to see increased. We would like to see about fifty shooters out every Friday night throughout the winter season.

The shooting is entrusted to the hands of the very capable Mr. and Mrs. Ed. Stack. So far I think I can safely say that everyone has thoroughly enjoyed themselves. I am sure that anyone who would care to come out and give it a try would certainly enjoy this same enthusiasm.

On Friday, December 12 we had a turkey shoot which was won (the bird) by Arthur Liss. I might add that this was his first time out for the winter shooting. We can't say that on your first time out you will win a turkey, but I think we can insure you a good evening of fun.

If you are a beginner don't let that bother you. Our shooters fall into just about any category that might fit your own situation. We are also toying with the idea of a night a week set aside for the younger set. This would be an instruction class for those who would be interested in learning about archery. Any of you kids, or you parents who would be interested in having your young ones learn something about it, get in touch with Mr. Fred Neuman. If there is enough interest shown I am sure that we can get something started.

BAR COMMITTEE

Monthly Statement for December, 1954

RECEIPTS		
Gross Sales		\$2,175.74
Other Income (Machine)		6.00
TOTAL GROSS RECEIPTS		2,181.74
